

Apollo History in 1 Page

Preparation 1963/67

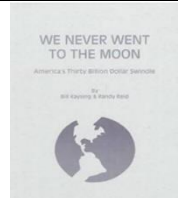

The Initiator	The Body	The Talk		The Simulator	The essential Journey
"...Before the end of the decade, we bring a man to the moon and safely back..."		James E. Webb, NASA administrator and President Johnson: "You should organize us the financial resources..."		For "Big fun" and just in case...	"On Antarctica we want to get reference material for comparison..."

Execution 1969/72

The Crash	The Manager	The Hoax	The Liar	The missing fire	Play with amateur actors
Failure in the main rehearsal	Thomas O. Paine, NASA Administrator	"The eagle has landed"	Richard Nixon had to retire, later	Apollo12: First time that doubts came up	Astronauts at the initial press conference after moon landing

Debriefing 1976/94

1st Truth Approach	The Hero	The Disguise	The director	Truth in Fiction	The Hint 1994
1976: Only few wanted to know	Sincere and honest	Cooperation offer to the Soviets	had knowledge of the big mistake	1976: Peter Hyams with Mars instead of moon	"...for those who remove the truth protecting layers in the NASA..."

Clearing 2004/23

Desperation	The Mistake	The big Mistake	Scientific Reality	The best of all	The late Hero
"we cannot find some Apollo artifacts."	Moon rock of wood for the dutch Queen	Jim Irving: response too fast	"The VanAllen Belt is a problem"	Massimo Mazucco, director	"Hahaha, you didn't see me on the Moon:. There was no TV there."
